

Technical Bulletin 9.15

Date: September 10, 2015
To: All DriTac Distributors
From: Larry Scott, Vice President of Field Technical Services
Subject: **DriTac 7700 Easy Clean 4-In-1 Over Cutback Adhesive**

Hardwood flooring installations just got easier! DriTac has taken one step out of your customers' floor prep. We are pleased to notify you that due to recent specialized design enhancements, **DriTac 7700 Easy Clean 4-In-1 can now be utilized to isolate old cutback adhesive residue when installing approved hardwood flooring.**

**DriTac 7700 Easy Clean 4-In-1
Premium "Green" Sound & Moisture Control MS Polymer Wood Flooring Adhesive**

Major Advantages:

- **NEW ***** Isolates Old Cutback Adhesive Residue*****NEW**
- Easy to clean off the surface of hardwood flooring when wet or dry
- Can be utilized as an adhesive only or as a 4-In-1 adhesive system
- Concrete Moisture Control = 15 lb., per ASTM 1869/85% RH, per ASTM 2170
- Sound Reduction System
- Crack Suppressant
- "Green" Product - Zero VOCs/Zero Solvents/Zero Isocyanates
- Independently Tested and 3rd Party Certified - CRI, Green Label Plus Program!
- Made in the USA!

DriTac 7700 Easy Clean 4-In-1 offers excellent subfloor prep consolidation and subsequently allows for a faster installation process that would typically require extra time and labor when attempting to isolate old cutback adhesive residue. DriTac 7700 Easy Clean 4-In-1 generates a cost savings by eliminating the need to skim-coat over top of cutback adhesive residue prior to the installation of hardwood flooring.

* **Please Note:** All subfloors should be properly prepared according to manufacturer recommendations.

Several of our latest product formulations have helped change the way hardwood flooring is installed. We are continually striving to enhance our existing product formulations to offer our customers the highest performing, value added products available in the market.

A revised product brochure for DriTac 7700 Easy Clean 4-In-1 is enclosed. For more information, please contact DriTac Technical Services at (973) 614-9000.
