

## DIAMABRUSH

### Hand Grinder

Diamabrush for wood, decks, and siding is the perfect all-around removal tool to get you back down to bare wood. The tool when attached to an angle grinder can cut through aluminum oxide and other thick gummy coatings or adhesives. Use it to significantly cut down time spent getting back to bare wood to truly start the art of your project. [diamabrush.com](http://diamabrush.com)

## DRITAC

### Solid Wood & Bamboo Repair Kit

DriTac's Solid Wood & Bamboo Repair Kit is a two-part urethane solution designed to repair hollow spots, voids, and popping conditions in your wood flooring installations. It saves valuable time and money; no board replacement required. Simply inject the adhesive, fill the void, and allow to cure – it's that easy! [dritac.com](http://dritac.com)

## EASY GROOVE TOOLING LLC

### Router Bits

Easy Groove® router bits are for job-site created T&G floor joints. They feature a top-bearing design, durable C2 carbide tips, heat-treated alloy arbors, and replaceable cutter heads. The bits are sized for 3/4", 1/2", and 5/8" thick flooring. The company also produces an inlay router bit and 5/8" spline. [www.easygroove.com](http://www.easygroove.com)

## EDTM, INC.

### Thermo-Hygrometer

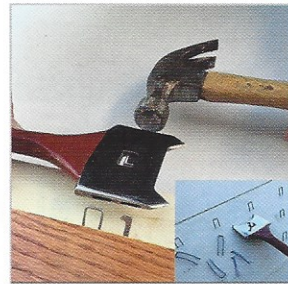

Reduce customer service calls by providing your customers with an inexpensive SaveMyFlooring.com Thermo-Hygrometer. Educate your customers about proper humidity control and make them part of the solution, by equipping them with this fantastic product. Include your logo on the hygrometer and professional gift box to maximize branding opportunities. [savemyflooring.com](http://savemyflooring.com)

## EMACK MANUFACTURING

### EMack Ryder Cart

Aimed at helping industry professionals increase efficiency while reducing effort, the EMack Ryder Cart allows users to operate up to three sanders simultaneously, reducing sanding time and removing strain on the body. Single phase and 3-phase are available for 230V or 480V of power. For more information or to order, call 616.241.3040 or visit [emackmfg.com](http://emackmfg.com)

## FANG IND, LLC

### Fang Tool

The Fang tool pulls misfired staples or cleats, and it sinks those too low to pull. It pries flooring away from the baseboards without damaging the base or hardwood and can close gaps in the field. Fang also removes leftover staples when removing an old floor, and contractors can utilize its unique chisel feature for shaping boards and tapping out damaged boards without lifting adjacent boards.
