Trimaco's X-Paper heavy-duty contractor paper

X-Paper from Trimaco is 1.5 times thicker than regular contractor's paper, making it more durable and long-lasting. It provides superior protection for floors and surfaces and protection from minor spills. X-Paper is breathable and can be laid over curing floors. **For information, circle 156 on the Free Info Card, call (800) 325-7356; visit www.trimaco.com.**

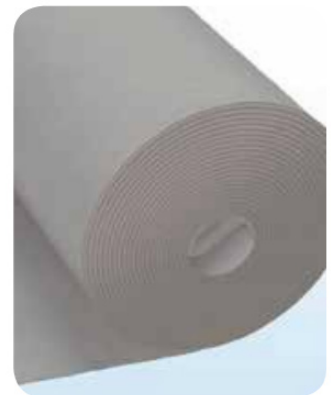

DriTac's MegaBond adhesive controls shrinkage

DriTac Eco-5900 MegaBond is a premium-grade, "green" resilient flooring adhesive designed for the interior installation of LVT/LVP, vinyl sheet goods, carpet tile, rubber flooring, cork tile, cork/rubber/foam underlayments and WPC flooring. Megabond provides high moisture resistance and has been specially formulated to help control vinyl plank

shrinkage. **For information, circle 147 on the Free Info Card, call (973) 614-9000; visit www.dritac.com.**

Foam Products' Eco Ultimate Silencer features acoustical underlayment, moisture barrier

Foam Products Corp.'s premium product, The Eco Ultimate Silencer, is the finest acoustical underlayment for floating, glue down, and nail down laminate, solid hardwood, engineered wood, and bamboo flooring available in today's marketplace. Further, the company's Silencer LVT product is the leading acoustical underlayment for ALL floating and glue down vinyl plank flooring. **For more information, circle 234 on the Free Info Card, or call (706) 629-1256; visit www.foamproducts.com.**

Measure dual-depth, RH with Lignomat DuoTec BW

Ligno-DuoTec BW from Lignomat is a dual-depth pinless meter for floor installers and inspectors. Built-in corrections are for domestic and tropical wood species, subfloors, different types of bamboo and a

reference scale for concrete. The BW kit with RH BluePeg Probes can measure ambient conditions of air and in-situ RH in concrete, in compliance with ASTM F2170-11. **For information, circle 161 on the Free Info Card, call (800) 227-2105; visit www.lignomatusa.com.**
