

PRODUCT FOCUS

Adhesives & Moisture Control Systems

AAT-595 MOISTURE CONTROL MEMBRANE

Advanced Adhesive Technologies, Inc.

AAT-595 Moisture Control Membrane is a unique co-polymer that provides protection for flooring installations from elevated moisture in new concrete slabs – 95% in situ RH, 10lbs. of MVE and pH 11.0. An efficient and economical single coat membrane, AAT-595 can be applied in a single day. Visit aatglue.com for details.

ACCORD™ SOUND RATED FLOORING PAD

Fortifiber Building Systems Group

Accord helps maintain comfort underfoot, providing an outstanding acoustic barrier plus dependable moisture vapor protection. Designed to be used over sub-floors, and under floating laminate and engineered flooring, Accord is easy to install, with an integrated seam seal tape. It is also a Class I moisture vapor barrier over concrete.

BONE DRY PRO

Bone Dry Products, Inc.

Bone Dry Pro is a colorless, odorless, non-toxic, nonflammable, low viscosity, spray applied liquid formulation that provides a permanent internal moisture barrier. Bone Dry Pro is the ultimate moisture mitigation solution for all types of floor coverings offering a 20 year commercial warranty.

CASTLE ADHESIVE CX-5000 SINGULOCK URETHANE HYBRID 5 GAL

National Hardwood Flooring & Moulding

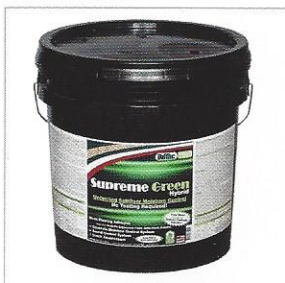

Castle Adhesive CX-5000, 5 gallon Singulock Urethane Hybrid moisture barrier and wood flooring adhesive. For installation of laminated, engineered, and parquet flooring over concrete.

DB-4FLOORING™ PRO

dB Sound Control Solutions

Multifamily housing and hospitality properties have unique sound control challenges. Our materials are uniquely engineered to address those challenges.
