1. ASSA ABLOY's Emergency Exit Device

The Yale A-ALR Emergency Exit Device is suitable for use with new or retrofit openings within restaurants that are alarmed for security, such as back-of-the-house exit doors. The product is ANSI/BHMA Grade 1 and UL/cUL listed for panic hardware. Install or retrofit the device onto existing door preps. It includes a red LED indicator that flashes every 30 seconds when the device is alarmed and has a built-in alarm powered by 9V battery sounds at 90 dB at 10 feet. assaabloy.com

2. Beaufurn's Amelia Seating Collection

The Amelia Seating Collection includes a side chair, armchair and barstool. The clean lines of the exposed beechwood frame with its gently

tapered legs and partially open back provide a solid, elemental silhouette suitable for restaurants, cafes, country clubs, universities and assisted living establishments. The wood frame can be stained in any of the manufacturer's standard wood finishes. An upholstered seat and back are available. beaufurn.com

3. DriTac Flooring Products Single-Compartment Acrylic Floor Primer

DriTac Flooring Products' Primer 3000 is a single-component acrylic floor primer for interior use on various approved substrates, including concrete, wood, lightweight concrete and gypcrete. Apply this floor primer using a broom, sprayer or nap roller application with a robust spread rate of up to 800

square feet per gallon, depending on application method, subfloor preparation and porosity. Primer 3000's solvent-free, low-odor formula is colored green for easy identification. It's available in 1-gallon containers and 4-gallon pails. DriTac.com

4. Enduralex's Essentials for Outdoor Applications

Essentials is a line of outdoor upholstery products and is part of Enduralex's Puretex collection. Suitable for various hospitality and healthcare applications, Essentials features a series of solid colors that coordinate with other lines the manufacturer provides. The line uses TPO in combination with PU in the topskin to reduce the likelihood of staining. Essentials features UV-stabilized pigments that work
