DriTac's new & improved MCS 7000, two-part epoxy, Concrete Moisture Control System

DriTac Flooring Products has launched a new and improved "green" concrete moisture control system designed to reduce the rate of harmful moisture vapor emissions up to 100% relative humidity (RH) and 25 lbs. down to levels accepted by most flooring

manufacturers. Manufactured in the USA, DriTac New & Improved MCS 7000 consists of a two-component epoxy — Component A (1-gal.) and Component B (.79 gal.). Easy to mix and apply, the low odor formula allows for same-day installations with a six-hour cure time. Certified by the Carpet and Rug Institute's Green Label Plus Program for Indoor Air Quality, it touts DriTac's "green" certification, contributes to LEED credits, and will not promote mold growth. For information, circle 214 on the Free Info Card, call (973) 614-9000 ext. 243; visit www.DriTac.com.

New VaporShield95 Rolled Moisture Barrier from Traxx

Traxx Corp. announces the launching of VaporShield95, a low cost loose-lay rolled moisture barrier that protects flooring up to 95% RH over concrete.

The product is warranted to 95% RH, and installs in hours, not days. For information, circle 194 on the Free Info Card; call (909) 623-8032; visit www.traxxcorp.com.

Now Available: Covebase Groove Cutter from D-Cut

Now available from D-Cut Products is the Covebase Groove Cutter. According to the company, the unit cuts grooves on 1/2"-thick toe or toeless cove base with heights between 4"-8.25". Featuring microadjustments for different cove base thicknesses, the unit makes sharp V-shape groove cuts at 102 degrees for both inside and outside corners. The cutting depth, cutting length and clamp tightness are all adjustable. For information, circle 104 on the Free Info Card, call (630) 916-9100; visit www.dcutproducts.com.

DeFelsko's new PosiTector CMM IS Concrete Moisture Meter - In Situ

The new PosiTector CMM IS In-Situ Concrete Moisture Meter from DeFelsko measures relative humidity in concrete slabs in accordance with ASTM F2170. The fully reusable, wireless sensors connect to the PosiTector App (iOS/Android) via Bluetooth with no need to open the hole to take a measurement. For information, circle 236 on the Free Info Card, call (800) 448-3835; visit www.defelsko.com.
