Tongue & Groove Flooring Adhesive:

- DriTac 8100

All DriTac wood flooring adhesives are warranted for a period equal to the flooring manufacturer’s product warranty for adhesion to the sub-floor for all Multi-Ply Engineered Plank and Solid Wood Plank flooring installations.

DriTac wood flooring adhesives must be used in accordance with DriTac’s most recent installation instructions for the specific adhesive used. Refer to detailed instructions on the adhesive container for each DriTac adhesive to determine the appropriate DriTac adhesive suitable for specific wood flooring products. The warranty applies only to wood floors installed according to the manufacturer’s recommendations for approved sub-floors, pre-installation preparation, including moisture and alkali limitations and job site conditions. The warranty applies for adhesion only; refer to specific product moisture warranties for warranty information on moisture limitations where it applies.

As buyer’s sole remedy, in the event of a valid claim under this Limited Warranty, DriTac will pay for the reasonable cost of materials and labor, on a square foot basis, necessary to repair or replace the portion of the original installation that is proven to be defective. Under no circumstance will DriTac be liable for direct, incidental, consequential, special, economic, or other damages. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations may not apply.

All conditions and limitations are contained in the specific warranty for each DriTac product. Contact DriTac Flooring Products’ Technical Services for installation recommendations and a copy of the individual product or moisture warranties at 1-973-614-9000.
