

GOING GREEN

Bostik

See ad page 19

Ultra-Set SingleStep2 is a hardwood flooring adhesive, offering high-performance adhesive, moisture control and sound reduction membrane all in one. The formula includes recycled rubber material, and zero VOCs as calculated per SCAQMD Rule 1168. It meets USGBC LEED Version 4 BD+C, ID+C, the WELL Building Standard, and the ANSI/GBI 01 Green Building Assessment Protocol standards part of CDPH standards.

The companies on the following pages—all advertisers in this issue—have made impressive inroads toward protecting the wellbeing of consumers and wood flooring professionals, as well as the health of the global environment overall. See below to discover how they have adopted environmental sustainability as a bedrock of their businesses.

Delmhorst Instrument Co.

See ad page 68

Delmhorst Instrument Co. is celebrating 75 years by introducing the new Navigator family of moisture meters—the BDx-20 and BDx-30. The BDx-30 features the new Edge app to customize meter settings and export data quickly and accurately, alleviating the need to use pen and paper for notes at the jobsite, the company says.

Goodwin Company— Fine Antique Wood Flooring Since 1976

See ad page 33

The Goodwin Company offers River-Recovered and building-reclaimed antique wood for the building design industry. Goodwin River-Recovered wood has more growth rings per inch than standing wood today—and the more growth rings, the stronger the wood, the company says.

Goodwin has been crafting fine antique wood flooring since 1976.
