

PRODUCT FOCUS

Subfloors/Subfloor Preparation/ Adhesives

ADVANCED ADHESIVE TECHNOLOGIES INC.

AAT-560 Professional Urethane Wood Flooring Adhesive

A tremendous improvement for urethane adhesives. The adhesive provides industry-leading strength and contains no isocyanates, the chemical in other urethanes that will etch floor finishes. With our #12 clip-on blade, an unlimited moisture barrier can be achieved. AAT-560 is EC-1 certified and qualifies for LEED credits.

ADVANTECH

AdvanTech™ Subfloor Adhesive

AdvanTech subfloor adhesive is a foam-to-gel polyurethane adhesive that provides a strong panel-to-joist connection between framing and AdvanTech® subflooring, traditional OSB or plywood subflooring, preventing movement between the floor panels and the joists/trusses, which can lead to squeaky floors. AdvanTech subfloor adhesive even adheres to wet and frozen lumber.

BONA

Bona R851®

Bona R851® is a silane-based wood flooring adhesive that provides exceptional "green grab" strength. Its elastomeric characteristics allow the adhesive to move with the wood as it expands and contracts over the life of the floor. Key benefits include: easy-to-apply, unsurpassed ridge stability, easy-to-clean, and zero VOCs.

BOSTIK

SL-175™

Bostik SL-175™ is a premium, cement-based, self-leveling underlayment that can be used to create a smooth, flat, or level surface prior to the installation of floor coverings. Its long working time, low shrinkage, and superior leveling properties make it the ideal product for demanding applications on, above, or below grade.
