SikaBond T-21 for installing hardwood

SikaBond-T21 is an all-in-one polyurethane adhesive that offers unlimited moisture protection and sound reduction for full surface wood floor bonding. This one-component moisture-cure adhesive is permanently elastic, super strong, vapor retarding and crack bridging. SikaBond-T21 features low VOCs, low permeability and is extremely easy to trowel. **For information, call (201) 933-8800 or visit www.usa.sika.com**

Temporary Floor Protection from Albert Floorotex

From albert floorotex is a slightly adherent mat with a breathable protective film suitable for the temporary protection of hardwood, laminate, and ceramic floors and carpet. The product protects the floor from impact damage as well as scratches and imprints. Measuring approx. 0.12"-thick, the mat's underside contains a special adhesive which prevents the nonwoven material from slipping. The top blue surface protects the floor against spillage, paint or water. Breathable and featuring a high permeability rate, the tear-proof and durable mat can be reused several times after light usage. **For information, call (949) 294-7382 or visit www.floorotex.com**

Control the gap with MAPEI Ultrabond ECO 399 adhesive

New from MAPEI is Ultrabond ECO 399, a heavy-duty, pressure-sensitive, multi-flooring adhesive designed to minimize gaps in luxury vinyl tile and luxury vinyl plank (LVT/ LVP). This aggressive adhesive is highly resistant to heavy rolling loads, to high moisture content, and to changes in temperature, some of the main causes of gapping in resilient flooring. Ultrabond ECO 399 features enhanced dimensional control properties that allow it to install a wide variety of resilient flooring types. **For information, call (800) 992-6273 or visit www.mapei.us**

NAC Products' SubSeal liquid Elastomeric Waterproofing Membrane

NAC Products' SubSeal liquid is a one part, ready-to-use, elastomeric waterproofing membrane which also functions as a sealant and moisture barrier for interior and exterior applications. SubSeal contains no VOCs and is certified Clean Air GOLD, conforming to the CDPH Standard Method v1.2 for Private Office and School Classroom. The perfect solution for shower pans, shower walls, exterior decks, and other areas requiring waterproof protection. **For more information, call (800) 633-4622 or visit www.NACproducts.com**

Traxx Corp. LiquiShield 100

LiquiShield 100 from Traxx Corp. is a patented water-based copolymer product designed to treat interior moisture vapor emission (up to 100% RH) and protect against alkalinity (up to 14 pH) prior to installing moisture or alkaline sensitive floor coverings. Nano sized particles allow deep penetration into substrate. According to the company product dries clear, quick drying and ready for floor covering in 60 min. or less. Exceeds ASTM F3010-13 requirements for vapor reduction when tested in accordance with ASTM E96 (<0.1 perm). **For information, call (909) 623-8032 or visit www.traxxcorp.com**

Lignomat's Ligno-VersaTec All-in-One Measuring Kit for Wood Moisture, RH

An all-inclusive moisture and humidity measuring kit has been put together for the floor installer and inspector. The measuring kit from Lignomat includes the Ligno-VersaTec moisture meter, which can be operated as a pin meter, a pinless meter, as well as a Thermo-Hygrometer. The meter has individual settings in pin and pinless mode for soft and hardwoods, OSB, sub floors, bamboo, concrete and drywall. All other flooring materials such as carpets and laminates can be examined with reference scales, which are also pre-programmed. A precision RH probe is included. **For information, call (800) 227-2105 or visit www.lignomat.com**
