Sika-DriTac’s primary company objective is to produce and deliver the highest quality, eco-friendly flooring solutions across the country and around the globe with excellent service and a deep appreciation for our valued customers.

Sika-DriTac is one of the most experienced manufacturers of premium grade adhesives and installation solutions for the wood and resilient floor covering industry in commercial and residential construction. Made in the USA, DriTac is committed to providing our customer base with dependable, innovative and eco-friendly flooring products.

Sika-DriTac is currently one of a very few adhesive manufacturers’ to offer all of the major adhesive technologies: urethane, MS polymer, pressure sensitive, acrylic and more. Sika-DriTac has become a leader in the development of wood flooring system adhesives that offer sound and moisture control with a single-component, one-step application.

A trailblazer in cultivating environmentally friendly flooring adhesives and installation products, Sika-DriTac offers a full line of zero VOC, zero solvent and independently tested products that have been certified by the Carpet and Rug Institute’s Green Label Plus Program for Indoor Air Quality.

Sika-DriTac continues to manufacture easy-to-use, premium grade products for the professional installer and DIY market. The company continually invests in the research and development of new technology, resulting in Sika-DriTac leading the flooring industry with the highest quality products and solutions. With state-of-the-art laboratory facilities and a robust staff of full-time research scientists on hand, it is our goal to provide you with the most innovative, efficient and environmentally friendly adhesives, underlayments, sports flooring and installation products available.

A WORD FROM OUR CUSTOMERS

“We at The Garrison Collection believe that the best flooring deserves the best adhesive. That’s why we have proudly recommended Sika-DriTac adhesives for over 10 years. To date, we have sold nearly 1 million pails of Sika-DriTac adhesive with a perfect success rate when following the NWFA installation procedures. We gladly and confidently recommend Sika-DriTac flooring adhesives for any project large or small. Sika-DriTac has been used in combination with Garrison Collection flooring in some of our most celebrated, recognized projects, including:“

- Bernardus Lodge & Spa in Carmel, CA - A Forbes Four Star resort featured in Robb Report, Conde Nast Traveler’s “Top Hotels”, and Travel + Leisure “World’s Best Hotels”
- Hotel Maya in Long Beach, CA - Ranked #4 in USA Today’s “10 Best Boutique Hotels in Southern California”
- The Mansions in Acqualina in Sunny Isles Beach, FL - 47-Story luxury, oceanfront condominium tower advertised as “The World’s Finest Residences”

- Jim Hilaski, President & Shaul Dina, Vice President of The Garrison Collection, CA

“Simply the best adhesive I have ever used!” - Bob Heller, Flooring Solutions, Hicksville, NY

“I love your product!” - Sam Kwartowski, Mr. Floor Inc., Skokie, IL

“I will not glue anything down unless it's with a Sika-DriTac product!” - Joey Dye, Amazing Floor Options, North Carolina

“It is the best value in adhesives!” - Tom Goering, The Floor Doctor, Sarasota, FL

“We distribute all Sika-DriTac products and we are very satisfied!” - Kevin O’Donnell, Eastside Flooring Service, New York City, NY

Trowel diagrams are not to scale. Use DriTac 9100 adhesive with a properly notched trowel. All square footage rates are estimated. Rates will vary based on substrate condition and the angle the trowel is held to the subfloor. Failure to properly flatten the subfloor may result in hollow spots. Sika-DriTac warranties do not cover problems caused by improper use of installation products. Follow flooring manufacturer’s written installation instructions.

Trowel diagrams are not to scale. Use DriTac 6200 adhesive with a properly notched trowel. All square footage rates are estimated. Rates will vary based on substrate condition and the angle the trowel is held to the subfloor. Failure to properly flatten the subfloor may result in hollow spots. Sika-DriTac warranties do not cover problems caused by improper use of installation products. Follow flooring manufacturers written installation instructions.

* When installing cork tiles up to 1/4" in thickness use 3/32" x 3/32" x 3/32" V notch. Spread rate 120 square feet per gallon. When installing cork tiles greater than 1/4" in thickness use 1/8" x 1/8" x 1/8" U notch. Spread rate 80 square feet per gallon.
UNDERLAYMENTS & SPORTS FLOORING
DriTac 8408 PowerTread Roll is a premium-grade 8mm rubber flooring for glue down and floating installations. Engineered for high impact sports flooring, PowerTread Roll is made from 100% post-consumer waste, affording the green community the best sound abatement choice for their eco-friendly projects.

**ATTRIBUTES**
- Composed of up to 100% Post-Consumer Waste
- High Durability and Toughness
- High Impact Shock Absorbant
- Sound Absorbant
- Slip Resistant
- Maximum Comfort Underfoot
- Helps Contribute to LEED Credits

**AVAILABLE COLORS**
- Red
- Blue
- Black
- Blue/Gray
- Gray
- Tan

**SPECS**
4' x 25' = 100 sq. ft./roll

DriTac 8408 PowerTread Tile is a premium-grade 8mm interlocking rubber tile for floating installations. Engineered for precision-fit sports and fitness flooring, PowerTread Tile is made from 100% post-consumer waste, affording the green community the best sound abatement choice for their eco-friendly projects. These recycled rubber tiles interlock with such precision that its seams are nearly invisible.

**ATTRIBUTES**
- Made from 100% Post-Consumer Waste
- High Durability and Toughness
- High Impact Shock Absorbant
- Sound Absorbant
- Slip Resistant
- Maximum Comfort Underfoot
- Helps Contribute to LEED Credits

**AVAILABLE COLORS**
- Red
- Blue
- Black
- Blue/Gray
- Gray
- Tan

**SPECS**
Standard Tile Dimensions: 24" x 24" x 5/16"
8402, 8405 & 8410 ENVIROTREAD
2mm, 5mm & 10mm Rubber Underlayment
for Glue Down and Floating
Hardwood, Carpet & Carpet Tile, Ceramic Tile & Stone
and Laminate Flooring

DriTac EnviroTread is a high performance rubber underlayment and acoustical barrier for successful installations of hardwood, carpet & carpet tile, ceramic tile & stone, and laminate flooring. EnviroTread offers the Total Sound Reduction System (SRS) enhanced lifetime warranty when utilized in conjunction with approved DriTac flooring adhesives in ‘double-stick’ applications.

EnviroTread is made from 100% post-consumer waste, affording the green community the best sound abatement choice for their eco-friendly projects.

ATTRIBUTES
• Anti-Crush Mechanical Properties
• Improved Foot Fall Sound Performance
• Diminishes Minor Floor Irregularities
• Dual Force, Silent Fuse Technology with SRS
• For Residential and Commercial Applications

ACOUSTICAL RATINGS
• 2mm: Up to IIC 53
• 5mm: Up to IIC 71; STC 63
• 10mm: Up to IIC 74; STC 66

FLOORING TYPES
• Hardwood
• Carpet
• Carpet Tile
• Ceramic Tile
• Stone
• Laminate

SPECS
• 2mm: 4’ x 75’ = 300 sq. ft./roll
• 5mm: 4’ x 30’ = 120 sq. ft./roll
• 10mm: 4’ x 15’ = 60 sq. ft./roll
SPECIALTY PRODUCTS
Sika-DriTac has developed a repair system to correct the voids, hollow spots and popping conditions in solid wood and bamboo flooring installations.

**ATTRIBUTES**
- Cleans Up Easy When Wet
- Compact and Easy to Transport or Ship
- Saves the Installer and Homeowner Time & Money
- Reusable Components – Easy to Clean and Use Again
- Cost Effective – Eliminates Expensive Repairs & Board Replacements

**FLOORING TYPES**
- Bamboo
- Solid Wood Plank
- Multi-Ply Engineered Plank

**COMPONENTS**
- 1 - Injection Gun
- 3 - Mixing Nozzles
- 2 - Adhesive Cartridges
- 3 - Applicator Tips
- 2 - Drill Bits
- 4 - Wood Dowels
- 1 - Dowel Punch

**ADDITIONAL REFILL ADHESIVE**
- SW-2 Replenish Pack - Three Cartridges of Repair Adhesive Plus Other Components
FLOORING TROWELS

DriTac trowels are specially designed to be used with all DriTac flooring adhesives. DriTac trowels are made with comfort grip handles and high tempered carbon steel notched blades. A perfect way to ensure a successful installation is to use DriTac trowels with DriTac adhesives.

Use DriTac adhesives with a properly notched trowel. All square footage rates are estimated. Rates will vary based on substrate condition and the angle the trowel is held to the subfloor. DriTac warranties do not cover problems caused by improper use of installation products. Follow flooring manufacturers written installation instructions.

To help choose the best solution for your projects, Sika® has developed a classification system to define the performance and the features of each product. Use this icon legend for a better understanding of the products Sika® has to offer.
Sika® MB
Moisture barrier, substrate consolidator and adhesion promoter two-component epoxy
- Water Vapor Permeability: 0.06
- Rapid turnaround
- Reduction in adhesive consumption

**Tools:** Nap roller  **Color:** Blue

**Coverage per pail:**
- Moisture barrier: 250 - 300 sq.ft.
- Adhesion promoter or substrate consolidator: 400 - 450 sq.ft

**Packaging:** 2.64 US. gal. pail

---

Sika® MB Redline
Fast moisture barrier, substrate consolidator and adhesion promoter two-component epoxy
- Water Vapor Permeability: <0.06
- Rapid turnaround
- Cures in 3 hours at 73°F

**Tools:** Nap roller  **Color:** Red

**Coverage per pail:**
- Moisture barrier: 200 to 250 sq.ft.
- Adhesion promoter or substrate consolidator: 300 - 350 sq.ft

**Packaging:** 2 US. gal. pail

---

Sika® MB EZ Rapid
One-component, rapid-drying, polyurethane resin, moisture mitigation system and substrate solidifier
- 1 hour dry time
- Excellent adhesion promoter
- Low viscosity
- Compatible for glue-assist applications

**Tools:** Nap roller  **Color:** Blue

**Coverage:**
- 1 Coat: 1000 sqft per jug - 400 sqft per gallon
- 2 Coat: 500 sqft per jug - 200 sqft per gallon

**Packaging:** 2.5 US. gal. pail

**Moisture Limitations:**
- 1 Coat: 93% RH, #12 CC
- 2 Coats: 96% RH, #18 CC

---

Sika® MB and Sika® MB Redline:
100% RH, #25 CC, 6% Tramex

---

**MOISTURE PROTECTION**
WHERE TO USE
- Up to 100% RH, 25 lbs calcium chloride and under 6% Tramex
- Under any flooring system that requires protection from moisture

**SUBSTRATE CONSOLIDATION**
WHERE TO USE
- On weak or delicate substrates
- On old substrates
- Gypsum-based subfloors

**ADHESION PROMOTION**
WHERE TO USE
- Over old adhesive and residues
- Encapsulating asphalt based substrates including cutback
- Over old substrates
SikaLevel®-025 Patch

Rapid Setting, Polymer Modified, Cement-based Patching Compound
- For patching and leveling from featheredge to 1/2”
- Foot traffic in 30 to 60 minutes
- Apply over difficult substrates
Coverage: 25 sq.ft. at 1/8” thickness
Packaging: 25 lb. bags

SikaLevel®-225

Premium self-leveling underlayment
- Superior flow
- Long workability
- Quick turnaround
Coverage: 28 sq.ft. at 1/8” thickness
Packaging: 55 lb. bags

SikaLevel®-125

Durable self-leveling underlayment
- Economical
- Levels new and old floors
Coverage: 21 sq.ft. at 1/4” per bag
Packaging: 50 lb. bags

SikaLevel®-325

High performance self-leveling underlayment
- Interior & exterior use
- Deep pour
- High strength
Coverage: 26 sq.ft. at 1/4” per bag
Packaging: 55 lb. bags
SikaLevel®-01 Primer
Primer for porous substrates. Reduces absorbency of the substrate

- Broom applied
- Reduces pinholes
- 10 minute dry time on concrete
- Can be diluted with water

Color: White
Tools: Broom or brush
Coverage: 600-1000 sq.ft. dilution 1:3
Packaging: 1 US. gal. jug or 5 US. gal. jug

SikaLevel®-02 EZ
Primer for non-porous substrates. Provides optimum adhesion on tight substrates

- Nap roller applied
- Good skid resistant properties
- Short waiting time
- No dilution required

Color: Mint
Tools: Nap roller
Coverage: 350 - 500 sq.ft.

Sika® Latex R
Acrylic latex bonding agent and admixture for portland cement mortars and grouts

- Concrete/Mortar/Grout/etc. containing SikaLatex® R exhibits improved adhesion to prepared substrates
- Increased adhesive strength of mortar/concrete when used as a bonding grout
- Increased resistance to freeze/thaw durability
- Does not produce a vapor barrier

Packaging: 1 and 5 gal. jugs
For use with: SikaLevel®-025 Patch

As admixture/mixing solution: With mixer running, add SikaLatex® R solution and then the cement based product. Replace the amount of water recommended by the product. Do not dilute with water.

SikaBond® Remover
Fast drying solvent cleaner

- Ideal for SikaBond® urethane adhesives even after curing
- Does not leave “ghosting” on wood floor finish
- Leaves no residue
- Low odor

Packaging: 1 pint bottles; 12 per case

SikaBond® Construction Adhesive
One-component, moisture cured, elastomeric polyurethane adhesive

SikaHyflex®-150 LM
Glue assist hybrid adhesive

- Seals 12.4 lineal ft. of 1/2 x 1/4 in. bead/joint
- Seals 25 lineal ft. of 1/2 x 1/4 in. bead/joint
- Seals 35 lineal ft. of 1/2 x 1/4 in. joint

Cartridge & Sausage Solutions

Sikaflex® 11FC
Glue assist polyurethane adhesive

Sika® Latex R
Acrylic latex bonding agent and admixture for portland cement mortars and grouts

- Concrete/Mortar/Grout/etc. containing SikaLatex® R exhibits improved adhesion to prepared substrates
- Increased adhesive strength of mortar/concrete when used as a bonding grout
- Increased resistance to freeze/thaw durability
- Does not produce a vapor barrier

Packaging: 1 and 5 gal. jugs
For use with: SikaLevel®-025 Patch

As admixture/mixing solution: With mixer running, add SikaLatex® R solution and then the cement based product. Replace the amount of water recommended by the product. Do not dilute with water.
